PROFESSIONAL EXPERIENCE

Out Box Company | *2023 – Present*
Front-End & Back-End Developer (Laravel & React/Angular).

- Built and optimized responsive web applications using React.js and Angular, enhancing performance and user experience.
- Developed and integrated RESTful APIs using Laravel and MySQL, enabling dynamic content and seamless frontend-backend communication.
- Implemented reusable UI components and improved navigation flow, increasing user engagement.
- Boosted site performance by 25% with efficient asset management and lazy loading techniques.
- Utilized Git and GitHub for version control and streamlined CI/CD workflows.

Freelance.com | 2022 – Present
Full-Stack Web Developer (Front-End Focus).

- Designed and delivered fast, responsive websites using HTML, CSS, JavaScript, and modern frameworks.
- Built custom backend features with Laravel, including authentication, dashboard analytics, and API endpoints.
- Integrated third-party services (e.g., WhatsApp, maps, payment gateways) to expand app functionality.
- Reduced load times by 30% through performance tuning and image optimization.
- Collaborated with designers to ensure accessibility and consistency across mobile and desktop devices.
- Maintained clean, versioned code with Git and GitHub for smooth project tracking.

PROJECTS

- ***Ahmed Hosni Portfolio***

  Tech: **HTML**, **CSS**, **Vanilla JavaScript (No Framework)**
